

# Student Survey: Classroom Feedback

## ABOUT SCHOOL PERCEPTIONS

School Perceptions LLC is an independent educational research firm that works with school districts and regional service agencies, as well as state and national organizations. Since our founding in 2002, more than 10,000 schools have used School Perceptions to collect millions of survey responses from students, staff, parents, and community members. Our Student Survey gives your students a voice and provides you with the data needed to identify the challenges and concerns your students have at school.

## THE BUILDING BLOCKS TO STUDENT SUCCESS

# 1

### GATHERING STUDENT FEEDBACK

Gathering feedback from students is the first step in improving their classroom learning experience. While assessments gather data on what students learn, the School Perceptions Student Classroom Feedback Survey collects data to quantify the engagement level of each student, the relevance of lessons, and classroom organization. When students share their experiences and feelings, each of their teachers can better reflect on what is and isn't working.

# 2

### SURVEY DESIGN AND ADMINISTRATION

The survey is designed with benchmarked items and can be customized with questions unique to your school. Our software emails a survey invitation to each student, allowing them to anonymously provide feedback regarding each of their teachers. Our software automatically follows up with non-responders to guarantee a high response rate. Students can take the survey on their personal device or in a classroom/computer lab setting.

# 3

### REFLECTION ON EQUITY

By interfacing with your student management data, student responses can be analyzed by their demographics, including gender, race, free/reduced lunch, special education status, and others. This data provides insights into students' perception of equity in each classroom.

*Dear Students,*

*Your school has hired us, School Perceptions, to conduct a survey to help gather feedback on your school experiences. Your honest responses will help the District to provide you with the best education possible. **All responses come directly to School Perceptions and your name is NEVER connected to your responses.***

*The survey link/code can only be used once and should not be shared.*

*Once you enter the survey you will have the opportunity to respond to a series of questions for specific teachers. **The teacher you are responding about is named at the top of the page.***

*Thank you, in advance, for your time and participation.*

## UNDERSTANDABLE REPORTS

School Perceptions provides reports to help you easily make sense of your data. School-level reports are provided to each principal, sorted by teacher. Individual reports are provided for each teacher, sorted by demographics. School administrators are also given password-protected access for dynamic analysis.

# 5

## SCHOOL IMPROVEMENT PLANNING

The School Perceptions Student Classroom Feedback Survey helps teachers and school teams identify where they excel, determine areas to enhance the learning process, set professional goals, and identify topics for professional development.

## OUR CUSTOMERS' IMPRESSIONS OF SCHOOL PERCEPTIONS

“While often times the Student Feedback Survey results are validating and empowering for teachers, there are times, where as a principal, it is beneficial to have data around which to have meaningful, improvement-focused discussions.”

***Trent Langemo, Principal,  
Kasson-Mantorville High School***

“School Perceptions was the easy choice for our district. They provided a survey for our students, staff, and parents/community. They went out of their way to provide us a service that many others would have charged us exponentially more for. Beyond that, the staff at School Perceptions has been a joy to work with. From survey creation/modification to helping us create action steps and telling us frankly where we needed to work, they were consummate professionals. I look forward to working with them annually.”

***Tim Joynt,  
Director of Curriculum and Instruction,  
Shorewood School District***

“We have used School Perceptions for over 10 years and they have always delivered on every project we had. We currently work with them on three yearly projects and the information we get from School Perceptions drives change in our district.”

***Phil Ertl, Superintendent,  
Wauwatosa School District***

“School Perceptions is a customer-driven, results-oriented company that provides services to help school districts create their own dashboard in communication of strengths and opportunities to improve. Their survey process engenders trust from the participants' perspective as well as confidence from the district that results obtained are valid and reliable. As a district leader, I appreciate the expertise offered by School Perceptions in survey development, their feedback on trends observed, and their insights to assist with strategic planning. For our district, School Perceptions is our 'go-to' resource for seeking feedback from our students, staff, and community.”

***Patricia Vickman, Superintendent,  
Southern Door County School District***
